

# SOUTHEASTERN UNIVERSITY

The main entrance to Southeastern University has been temporarily blocked to accommodate construction on Longfellow Boulevard for our new signage and entryway. Please use either of the two alternate campus gates as shown on the map below.

- The north gate on Longfellow Boulevard is north of the main gate, and
- The south gate is by the Sportsplex on Lowry Avenue just off North Crystal Lake Drive.

Please follow the yellow arrows on the map below and park in any available spot. Or, feel free to park in the grass lot located just past the north gate. If you first need to drop anything off, you may do so by driving behind the Student Activities Center (#23 on the campus map), unload, and then proceed to park. Then, please proceed to Bush Chapel (#21 on the campus map) where the General Session will begin at 2:30pm sharp. If you arrive prior to the start of the General Session, please feel free to visit the Campus Bookstore or Mi Casa Café in the Pansler Alumni Student Union (#19 on the campus map). Campus tours are available at 12:45pm and 1:30pm beginning at the Information Tent.

General parking will be available in any open spot on campus, or in the grass lot on the very north side of campus (just past Valencia residence halls, Spence Hall, etc).

Drop-offs of science and art projects, etc will be available in the drive behind the Student Activities Center. This area will be for unloading only; cars will need to move swiftly through, as this is the current location for *all* campus deliveries (FedEx, etc).

Bus parking will be available along the Prima Vista Boulevard island that runs between Aventura and Esperanza residence halls.
